Directors' Statement

The directors are pleased to present their statement to the member together with the audited financial statements of CATL Singapore Pte. Ltd. (the "Company") for the financial year ended 31 March 2020.

1. OPINION OF THE DIRECTORS

In the opinion of the directors,

- (a) the accompanying financial statements are drawn up so as to give a true and fair view of the financial position of the Company as at 31 March 2020 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. DIRECTORS

The directors of the Company in office at the date of this statement are:

Naveen Kapur
Shalini Kanwar Chand @ Shalini Chand

3. ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE SHARES AND DEBENTURES

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares or debentures of the Company or any other body corporate.

4. DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

No director who held office at the end of the financial year had interests in shares, share options, warrants or debentures of the Company, or of related corporations, either at the date of incorporation or at the end of financial year.

5. OPTIONS TO TAKE UP UNISSUED SHARES

During the financial year, no option to take up unissued shares of the Company was granted.

6. OPTIONS EXERCISED

During the financial year, there were no shares of the Company issued by virtue of the exercise of options to take up unissued shares.

7. UNISSUED SHARES UNDER OPTION

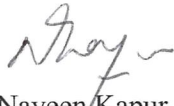

At the end of the financial year, there were no unissued shares of the Company under option.

(Co. Reg. No. 201818156E)**

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of CATL Singapore Pte. Ltd. (the "Company"), which comprise the balance sheet as at 31 March 2020, and the statement of comprehensive income, statement of changes in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Company as at 31 March 2020 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises the Directors' Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

**Independent Auditor's Report
to the member of CATL Singapore Pte. Ltd. – continued
(Co. Reg. No. 201818156E)**

Other Information (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**Independent Auditor's Report
to the member of CATL Singapore Pte. Ltd. – continued
(Co. Reg. No. 201818156E)**

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(Co. Reg. No. 201818156E)**

Report on Other Legal and Regulatory Requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

Notes to the Financial Statements – 31 March 2020

These notes are an integral part of and should be read in conjunction with the accompanying financial statements.

1. CORPORATE INFORMATION

The Company is a private company limited by shares incorporated and domiciled in Singapore.

The immediate holding company is Classic Industries and Exports Ltd (formerly known as Classic Auto Tubes Limited), incorporated in India and its ultimate holding company is Sunray Properties & Investment Co. Pvt. Ltd., incorporated in India.

The registered office and principal place of business of the Company is located at 31 Rochester Drive, #02-56 Park Rochester Avenue, Singapore 138637.

The principal activities of the Company are that of trading tyres and raw materials including rubber.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) *Basis of preparation*

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (FRS).

The financial statements have been prepared on the historical cost basis except where otherwise described in the accounting policies below.

The financial statements are presented in United States Dollar (USD or US\$) and all values are rounded to the nearest one-dollar unless otherwise stated.

The accounting policies adopted are consistent with those used in the previous financial period except in current financial year, the Company has adopted all applicable new and revised standards and Interpretations of FRS (“INT FRS”) that are relevant to its operations and effective for the current financial year. The adoption of these standards and INT FRS did not have any material effect on the financial position or performance of the Company for the current or prior financial period.

The Company applied FRS 116 for the first time. The nature and effect of the changes as a result of the adopting of the new accounting standards are described below:

FRS 116 Leases

FRS 116 supersedes FRS 17 *Leases*, INT FRS 104 *Determining whether an Arrangement contains a Lease*, INT FRS 15 *Operating Leases–Incentives* and INT FRS 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the statement of financial position. FRS 116 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use (“ROU”) asset representing its right to use.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) *Basis of preparation (continued)*

FRS 116 Leases (continued)

The Company applied FRS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 April 2019. Accordingly, the comparative information presented for 2019 is not restated - i.e. it is presented, as previously reported, under FRS 17 and related interpretations. The details of the changes in accounting policies are disclosed below. Additionally, the disclosure requirements in FRS 116 have not generally been applied to comparative information.

(a) *As lessee*

Prior to the adoption of FRS 116, non-cancellable operating lease payments were not recognised as liabilities in the balance sheet. These payments were recognised as rental expenses over the lease term on a straight-line basis.

The Company's accounting policy on leases after the adoption of FRS 116 is as disclosed in Note 2(m).

On initial application of FRS 116, the Company has elected to apply the following practical expedients:

- (i) For all contracts entered into before 1 April 2019 and that were previously identified as leases under FRS 17 *Leases* and FRS INT 104 *Determining whether an Arrangement contains a Lease*, the Company has not reassessed if such contracts contain leases under FRS 116; and
- (ii) On a lease-by-lease basis, the Company has:
 - (a) applied a single discount rate to a portfolio of leases with reasonably similar characteristics;
 - (b) relied on previous assessments on whether leases are onerous as an alternative to performing an impairment review;
 - (c) accounted for operating leases with a remaining lease term of less than 12 months as at 1 April 2019 as short-term leases;
 - (d) excluded initial direct costs in the measurement of the right-of-use ("ROU") asset at the date of initial application; and
 - (e) used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

There were no onerous contracts as at 1 April 2019.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) *Basis of preparation (continued)*

FRS 116 Leases (continued)

(a) *As lessee (continued)*

For leases previously classified as operating leases under FRS 17 on 1 January 2019, the Company has applied the following transition provisions:

For leases previously classified as operating leases under FRS 17 on 1 April 2019, the Company has applied the following transition provisions:

- (i) On a lease-by-lease basis, the Company chose to measure its ROU assets (except for ROU assets which meet the definition of investment property) at a carrying amount as if FRS 116 had been applied since the commencement of the lease but discounted using the incremental borrowing rate at 1 April 2019. For ROU assets which meet the definition of an investment property, the Company had measured the ROU assets at their fair values at 1 April 2019.
- (ii) Recognised its lease liabilities by discounting the remaining lease payments as at 1 April 2019 using the incremental borrowing rate for each individual lease or, if applicable, the incremental borrowing rate for each portfolio of leases with reasonably similar characteristic.
- (iii) The difference between the carrying amounts of the ROU assets and lease liabilities as at 1 April 2019 is adjusted directly to opening retained profits. Comparative information is not restated.
- (iv) For leases previously classified as finance leases, the carrying amount of the leased asset and finance lease liability as at 1 April 2019 are determined as the carrying amount of the ROU assets and lease liabilities.

The effects of adoption of FRS 116 on the Company's financial statements as at 1 April 2019 are as follows:

	1.4.2019
	US\$
Right-of-use assets	37,379
Lease liabilities	<u>(37,379)</u>

When measuring lease liabilities for leases that were classified as operating leases, the Company discounted lease payments using the applicable incremental borrowing rates at 1 April 2019. The weighted-average rate applied is 3.31%.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(a) *Basis of preparation (continued)*

FRS 116 Leases (continued)

The lease liabilities as at 1 April 2019 reconciled to the operating lease commitments as at 31 March 2019 is as follows:

	US\$
Operating lease commitment disclosed as at 31 March 2019	93,008
Short term lease	(85,303)
Committed non-cancellable leases with lease terms commencing after 1 April 2019	30,567
Discounting effect using weighted average incremental borrowing rate at 1 April 2019	(830)
Currency realignment	(63)
Lease liabilities recognised as at 1 April 2019	<u>37,379</u>

Standards issued but not yet effective

The Company has not adopted the following standards and interpretations that are potentially relevant to the Company that has been issued but not yet effective:

	Effective date (Annual periods beginning on or after)
Amendments to FRS 1 and FRS 8: <i>Definition of Material</i>	1 January 2020
Amendments to FRS 109, FRS 39 and FRS 107: <i>Interest Rate Benchmark Reform</i>	1 January 2020
Amendments to References to the Conceptual Framework in FRS Standards, illustrative examples, implementation guidance and FRS Practice Statements	1 January 2020
Revised Conceptual Framework	1 January 2020

The directors expect that the adoption of the standards and interpretations above will have no material impact on the financial statements in the period of initial application.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(b) *Functional and foreign currency*

The management has determined the currency of the primary economic environment in which the Company operates i.e. functional currency, to be USD.

Foreign currency transactions

Transactions in foreign currencies are measured in USD and are recorded on initial recognition at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are re-translated to the functional currency at the rate of exchange ruling at the end of the reporting period. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of initial recognition. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

(c) *Plant and equipment*

All items of plant and equipment are initially recorded at cost. Subsequent to initial recognition, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Depreciation is computed on a straight-line basis over the estimated useful lives of the assets as follows:

Computer	–	3 years
Office equipment	–	3 to 5 years

Fully depreciated assets are retained in the financial statements until they are no longer in use.

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) *Financial instruments*

(i) *Financial assets*

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement

Amortised cost

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, and through amortisation process.

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

(ii) *Financial liabilities*

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(d) *Financial instruments (continued)*

(ii) *Financial liabilities (continued)*

Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

(e) *Impairment of financial assets*

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss and financial guarantee contracts. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Company considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(e) *Impairment of financial assets (continued)*

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (i) significant financial difficulty of the issuer or the borrower;
- (ii) a breach of contract, such as a default or past due event;
- (iii) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (iv) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (v) the disappearance of an active market for that financial asset because of financial difficulties.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the procedures for recovery of amounts due.

(f) *Impairment of non-financial assets*

The Company assesses at each reporting date whether there is an indication that a non-financial asset, may be impaired. If any such an indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash inflows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash generating unit to which the asset belongs.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in profit or loss, unless the asset is carried at revalued amount, in which case, such impairment loss is treated as a revaluation decrease.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Trading goods – first-in-first-out basis.

Where necessary, allowance is provided for damaged, obsolete and slow moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

The amount of any write-down of inventories to net realisable value and all losses of inventories shall be recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, shall be recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurred.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and at bank.

(i) Trade and other payables

Trade and other payables are non-interest bearing and trade payables are normally settled on 30 to 60 days' terms while other payables have an average term of six months.

(j) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

If the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(k) *Borrowing costs*

Borrowing cost consists of interest and other costs that an entity incurs in connection with the borrowing of funds. All borrowing costs are expensed in the period they occur.

(l) *Employee benefits*

(i) *Defined contribution plans*

Defined contribution plans are post-employment benefit plans under which the Company pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

In particular, the Company makes contributions to the Central Provident Fund (“CPF”) scheme in Singapore, a defined contribution pension scheme. These contributions are recognised as an expense in the period in which the related service is performed.

(ii) *Employee leave entitlement*

Employee entitlements to annual leave are recognised as a liability when they accrue to employees. The estimated liability for leave is recognised for services rendered by employees up to the end of the reporting period.

(m) *Leases*

At the inception of the contract, the Company assesses if the contract contains a lease. A contract contains a lease if the contract convey the right to control the use of an identified asset for a period of time in exchange for consideration. Reassessment is only required when the terms and conditions of the contract are changed.

– The accounting policy for leases from 1 April 2019

(i) *As lessee*

▪ *Right-of-use assets*

The Company recognised a right-of-use asset and lease liability at the date which the underlying asset is available for use. Right-of use assets are measured at cost which comprises the initial measurement of lease liabilities adjusted for any lease payments made at or before the commencement date and lease incentive received. Any initial direct costs that would not have been incurred if the lease had not been obtained are added to the carrying amount of the right-of-use assets.

These right-of-use asset is subsequently depreciated over lease term using the straight-line method from the commencement date. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) *Leases (continued)*

- The accounting policy for leases from 1 April 2019 (continued)

(i) *As lessee (continued)*

▪ *Lease liabilities*

The initial measurement of lease liability is measured at the present value of the lease payments discounted using the implicit rate in the lease, if the rate can be readily determined. If that rate cannot be readily determined, the Company shall use its incremental borrowing rate.

Lease payments include the following:

- fixed payment (including in-substance fixed payments), less any lease incentives receivables;
- variable lease payment that are based on an index or rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under residual value guarantees
- the exercise price of a purchase option that the Company is reasonably certain to exercise the option; and
- payment of penalties for early termination of the lease, unless the Company is reasonably certain not to terminate early.

For contract that contain both lease and non-lease components, the Company allocates the consideration to each lease component on the basis of the relative stand-alone price of the lease and non-lease component. The Company has elected to not separate lease and non-lease component for property leases and account these as one single lease component.

Lease liability is measured at amortised cost using the effective interest method. Lease liability shall be remeasured when:

- there is a change in future lease payments arising from changes in an index or rate;
- there are changes in the Company's assessment of whether it will exercise an extension option; or
- there are modification in the scope or the consideration of the lease that was not part of the original term.

Lease liability is remeasured with a corresponding adjustment to the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(m) *Leases (continued)*

- The accounting policy for leases from 1 April 2019 (continued)

- (i) *As lessee (continued)*

- *Short term and low value leases*

- The Company has elected to not recognised right-of-use assets and lease liabilities for short-term leases that have lease terms of 12 months or less and leases of low value leases, except for sublease arrangements. Lease payments relating to these leases are expensed to profit or loss on a straight-line basis over the lease term.

- *Variable lease payments*

- Variable lease payments that are not based on an index or a rate are not included as part of the measurement and initial recognition of the lease liability. The Company shall recognise those lease payments in profit or loss in the periods that triggered those lease payments.

- The accounting policy for leases before 1 April 2019

- (i) *As lessee*

- Leases where the lessor effectively retains substantially all the risks and benefits of ownerships of the leased are classified as operating leases.

- Operating lease payments are recognised as an expense in the profit or loss on a straight-line basis over the lease term. The aggregate benefit of incentives provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis.

(n) *Revenue*

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(n) *Revenue (continued)*

▪ *Sales of goods*

Revenue from sale of goods is recognised at the point in time when control of the goods has transferred, being when the goods have been arrived at customer's specific location.

(o) *Government grant*

Government grants are recognised when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Where the grant relates to an asset, the fair value is recognised as deferred capital grant on the balance sheet and is amortised to profit or loss over the expected useful life of the relevant asset by equal annual instalments.

Government grant shall be recognised in profit or loss on a systematic basis over the periods in which the entity recognises as expenses the related costs for which the grants are intended to compensate. Grants related to income may be presented as a credit in profit or loss, either separately or under a general heading such as "Other income". Alternatively, they are deducted in reporting the related expenses.

(p) *Share capital*

Ordinary shares

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

(q) *Taxes*

(i) *Current income tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period.

Current income taxes are recognised in the profit or loss except to the extent that tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) *Deferred tax*

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(q) *Taxes (continued)*

(ii) *Deferred tax (continued)*

Deferred tax liabilities are recognised for all temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured using the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(iii) *Goods and services tax*

Revenue, expenses and assets are recognised net of the amount of goods and services tax (“GST”) except:

- Where the goods and services tax incurred in a purchase of assets or services is not recoverable from the taxation authority, in which case the goods and services tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of goods and services tax included.

The net amount of goods and services tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Notes to the Financial Statements – 31 March 2020

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) *Related parties*

A related party is defined as follows:

- (a) A person or a close member of that person's family is related to the Company if that person:
 - (i) Has control or joint control over the Company;
 - (ii) Has significant influence over the Company; or
 - (iii) Is a member of the key management personnel of the Company or of a parent of the Company.

- (b) An entity is related to the Company if any of the following conditions applies:
 - (i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others);
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member);
 - (iii) Both entities are joint ventures of the same third party;
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;
 - (vi) The entity is controlled or jointly controlled by a person identified in (a);
 - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Notes to the Financial Statements – 31 March 2020

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets, liabilities, and disclosure of contingent liabilities at the end of each reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

(i) *Judgement made in applying accounting policies*

In the process of applying the accounting policies, management has made the following judgements, apart from those involving estimations, which has the most significant effect on the amounts recognised in the financial statements:

▪ *Determination of lease term of contracts with extension options*

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Company has several lease contracts that include extension options. The Company applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to extend the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise the extension. After the commencement date, the Company reassesses the lease term whether there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to extend (e.g. construction of significant leasehold improvements or significant customisation to the leased assets).

The Company included the extension option in the lease term of leases of residential premise and residential premise is benefit in kind provided to director.

(ii) *Estimates and assumptions*

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

(ii) *Estimates and assumptions (continued)*

▪ *Useful lives of plant and equipment*

The cost of plant and equipment is depreciated on a straight-line basis over the plant and equipment's estimated economic useful lives. Management estimates the useful lives of these plant and equipment to be within 3 to 5 years. These are common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives of these assets, therefore, future depreciation charges could be revised. The carrying amount of the plant and equipment at the end of each reporting period is disclosed in Note 4 to the financial statements.

▪ *Calculation of expected credit loss ("ECL")*

When measuring ECL, the Company uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

▪ *Leases - estimating the incremental borrowing rate*

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate to measure lease liabilities. The incremental borrowing rate is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The incremental borrowing rate therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the incremental borrowing rate using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

Notes to the Financial Statements – 31 March 2020

4. PLANT AND EQUIPMENT

	Computers US\$	Office equipment US\$	Total US\$
Cost:			
At date of incorporation	–	–	–
Additions	2,136	4,166	6,302
At 31 March 2019 and 1 April 2019	2,136	4,166	6,302
Additions	–	–	–
At 31 March 2020	2,136	4,166	6,302
Accumulated depreciation:			
At date of incorporation	–	–	–
Charge for the period	504	425	929
At 31 March 2019 and 1 April 2019	504	425	929
Charge for the year	712	871	1,583
At 31 March 2020	1,216	1,296	2,512
Net carrying amounts:			
At 31 March 2019	1,632	3,741	5,373
At 31 March 2020	920	2,870	3,790

Notes to the Financial Statements – 31 March 2020

5. RIGHT-OF-USE ASSETS

Leases (as a lessee)

	Office premise US\$	Residential premise US\$	Total US\$
Cost:			
At 1 April 2019	37,379	–	37,379
Additions	–	287,904	287,904
At 31 March 2020	37,379	287,904	325,283
Accumulated depreciation:			
At 1 April 2019	–	–	–
Charge for the year	29,904	15,994	45,898
At 31 March 2020	29,904	15,994	45,898
Net carrying amount:			
At 31 March 2020	7,475	271,910	279,385

The Company leases several assets including office premises and residential apartments with lease term ranges from 1 to 3 years (2019: 1 year). The Company's obligation under this lease is secured by the lessor's title to the leased assets. The Company is restricted from assigning and subleasing the leased assets.

The maturity analysis of lease liabilities is presented in Note 12.

	31.3.2020 US\$
(i) <u>Amounts recognised in profit or loss</u>	
Depreciation expense on right-of-use assets	45,898
Interest expense on lease liabilities	2,355
	48,253
(ii) <u>Lease expense not capitalised in the lease liabilities</u>	
Expense relating to short-term leases	92,614
	92,614
(iii) Total cash outflow for all the leases in 2020 was US\$140,005.	
(iv) Extension option	

The Company has several lease contracts that include extension options. These options are negotiated by management to provide flexibility in managing the leased-asset portfolio and align with the Company's business needs. Management exercise significant judgement in determining whether these extension options are reasonably certain to be exercised [Note 3(i)].

Notes to the Financial Statements – 31 March 2020

6. INVENTORIES

	2020 US\$	2019 US\$
Goods-in-transit	<u>3,588,329</u>	<u>–</u>
Statement of comprehensive income: Inventories recognised as an expense in cost of sales	<u>13,007,874</u>	<u>19,421,820</u>

7. OTHER RECEIVABLES

Deposits	22,636	21,428
Prepayments	<u>9,162</u>	<u>11,752</u>
	<u>31,798</u>	<u>33,180</u>

Included in other receivables is an amount of US\$22,636 (2019: US\$21,428) denominated in Singapore Dollar.

8. AMOUNTS DUE FROM HOLDING COMPANY

The amounts due are trade related, unsecured, interest-free, repayable upon demand and to be settled in cash.

Included in amounts due from holding company is an amount of US\$17,155 (2019: US\$ Nil) denominated in Euro.

The amounts due are pledged to a financial institution for the banking facility granted (Note 13).

9. CASH AND CASH EQUIVALENTS

Included in cash and cash equivalents is an amount of US\$49,010 (2019: US\$18,514) denominated in Singapore Dollar.

10. OTHER PAYABLES

Accrued liabilities	<u>32,666</u>	<u>38,196</u>
---------------------	---------------	---------------

Included in other payables is an amount of US\$29,327 (2019: US\$19,885) denominated in Singapore Dollar.

11. AMOUNTS DUE TO HOLDING COMPANY

The amounts due are non-trade related, unsecured, interest-free, repayable upon demand and to be settled in cash.

Included in amounts due to holding company is an amount of US\$1,670 (2019: US\$1,670) denominated in Singapore Dollar.

Notes to the Financial Statements – 31 March 2020

12. LEASE LIABILITIES

	2020 US\$
Analysed as:	
Current	100,926
Non-current	179,320
	<u>280,246</u>
Maturity analysis:	
Year 1	108,586
Year 2	100,944
Year 3	84,120
	<u>293,650</u>

Lease liability are denominated in Singapore Dollar at end of reporting period.

The Company does not face a significant liquidity risk with regard to its lease liabilities. Lease liabilities are monitored by the finance director.

13. SHORT TERM BORROWINGS

	2020 US\$	2019 US\$
Trade financing	<u>2,676,381</u>	<u>5,750,313</u>

The borrowings bear interest rate ranging from 1.5225% to 2.9824% (2019: 3.2445% to 3.3885%) per annum. The trade financing is secured through exclusive charge on current assets (amounts due from holding company) (Note 8) and assignment of Raw Material Supply Agreement in favour of the Bank.

A reconciliation of liabilities arising from financing activities is as follows:

	2019	Cash flows	Non-cash changes		2020
	US\$	US\$	Adoption of FRS116	New lease acquired	US\$
			US\$	US\$	
Lease liabilities (Note 12)	–	(45,037)	37,379	287,904	280,246
Short term borrowings	<u>5,750,313</u>	<u>(3,073,932)</u>	<u>–</u>	<u>–</u>	<u>2,676,381</u>

Notes to the Financial Statements – 31 March 2020

14. TAX PAYABLE

	2020 US\$	2019 US\$
Balance at beginning of year/ at date of incorporation	29,456	–
Current year’s tax expense	–	29,456
Income tax paid	(27,123)	–
Balance at end of year	<u>2,333</u>	<u>29,456</u>

15. SHARE CAPITAL

	2020		2019	
	Number of shares	US\$	Number of shares	US\$
Issued and fully paid ordinary shares:				
At beginning of year/at date of incorporation	100,000	100,000	1	1
Issued during the year/ period	–	–	99,999	99,999
At end of year/period	<u>100,000</u>	<u>100,000</u>	<u>100,000</u>	<u>100,000</u>

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares have no par value carry one vote per share without restriction.

16. REVENUE

Revenue represents sales of goods in the normal course of business. The timing of revenue transferred is at the point in time.

17. OTHER OPERATING INCOME

	1.4.2019 to 31.3.2020 US\$	28.5.2018 to 31.3.2019 US\$
Government grants:

– Wage credit scheme	5,989	–
– Childcare leave	279	–
– NS Men leave	39	–
	<u>6,452</u>	<u>–</u>

18. OTHER CHARGE

Foreign exchange adjustments, loss	<u>1,954</u>	<u>472</u>
------------------------------------	--------------	------------

Notes to the Financial Statements – 31 March 2020

19. FINANCE COSTS

	1.4.2019 to 31.3.2020 US\$	28.5.2018 to 31.3.2019 US\$
Interest expenses on:		
– Lease liabilities	2,355	–
– Short-term borrowings	73,417	80,957
	<u>75,772</u>	<u>80,957</u>

20. (LOSS)/PROFIT BEFORE TAX

The (loss)/profit before tax is arrived at after charging:

Director’s accommodation	92,614	63,918
Professional fees	9,881	5,067
Repair and maintenance	25,349	4,453
	<u>127,844</u>	<u>73,438</u>

21. INCOME TAX EXPENSE

(i) *Major components of income tax expense*

The major components of income tax expense for the year/period ended 31 March 2020 and 2019 are:

Statement of comprehensive income:

Current tax	<u>–</u>	<u>29,456</u>
-------------	----------	---------------

(ii) *Relationship between tax expense and accounting (loss)/profit*

The reconciliation between the tax expense and the product of accounting (loss)/profit multiplied by the applicable tax rate for the year/period ended 31 March 2020 and 2019 are as follows:

(Loss)/profit before tax	<u>(122,786)</u>	<u>293,825</u>
Tax (benefit)/expense on profit before tax at 17%	(20,874)	49,950
Adjustments:		
Non-deductible expenses	1,112	614
Tax exemptions	–	(12,830)
Tax rebate	–	(7,364)
Deferred taxation not recognised	19,762	(914)
Total tax expense	<u>–</u>	<u>29,456</u>

Notes to the Financial Statements – 31 March 2020

22. DEFERRED TAXATION

	1.4.2019 to 31.3.2020 US\$	28.5.2018 to 31.3.2019 US\$
Deferred tax liability:		
Differences in depreciation	498	914
Total deferred tax liability	<u>498</u>	<u>914</u>
Deferred tax asset:		
Tax losses carry forward	(19,346)	–
Total deferred tax asset	<u>(19,346)</u>	<u>–</u>
Net total of deferred tax (asset)/liability	(18,848)	914
Deferred tax (asset)/liability on temporary differences not recognised	18,848	(914)
Balance	<u>–</u>	<u>–</u>

The Company has unabsorbed tax losses of approximately US\$113,800 (2019: US\$ Nil) that are available for offset against future taxable profits of the Company. The use of these tax losses is subject to the agreement with the Income Tax Authorities.

23. EMPLOYEE BENEFITS

	2020 US\$	2019 US\$
Employee benefits expenses (including directors):		
Salaries and bonuses	243,267	141,240
Central provident fund contributions	26,615	17,123
Benefit in kind	153,385	63,918
	<u>423,267</u>	<u>222,281</u>

24. OPERATING LEASE COMMITMENTS

The Company had entered into commercial leases mainly on office and house. These leases had tenures between 1 and 1.5 years with no renewal option or contingent rent provision included in the contracts. There were no restriction placed upon the Company by entering into these leases.

As at 31 March 2019, the future minimum rental payable under non-cancellable leases are as follows:

	2019 US\$
Not later than one year	<u>93,008</u>

Notes to the Financial Statements – 31 March 2020

24. OPERATING LEASE COMMITMENTS (continued)

Minimum lease payments recognised as an expense in profit or loss for the financial period ended 31 March 2019 amounted to US\$86,393.

As disclosed in Note 2(a), the Company has adopted FRS 116 on 1 April 2019. These lease payments have been recognised as ROU assets and lease liabilities on the balance sheet as at 31 March 2020, except for short-term and low value leases.

25. RELATED PARTY DISCLOSURES

In addition to those related party information disclosed elsewhere in the financial statements, the following significant transactions between the Company and related parties that took place at terms agreed between the parties during the financial year:

(i) *Significant related party transactions*

	2020	2019
	US\$	US\$
<i><u>Holding company</u></i>		
Sales	13,463,162	20,101,698
Expenses paid on behalf of	<u>–</u>	<u>1,670</u>

(ii) *Compensation of key management personnel*

Key management personnel of the Company are those persons having the authority and responsibility for planning, directing and controlling the activities, directly or indirectly, of the Company. The directors of the Company and the general management of the Company are considered as key management personnel of the Company.

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include interest rate risk, foreign currency risk, credit risk and liquidity risk. The Company's risk management policies focus on the unpredictability of financial markets and seek to, where appropriate, minimise potential adverse effects on the financial performance of the Company. The Company does not have any written financial risk management policies and guidelines and there has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

The following sections provide details regarding the Company's exposure to the financial risks associated with financial instruments held in the ordinary course of business and the objectives, policies and processes for the management of these risks.

Notes to the Financial Statements – 31 March 2020

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(i) *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of the Company and the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk arises primarily from their short term borrowings, interest-bearing loans given to related parties, investments in debt securities and cash and cash equivalent.

The Company's policy is to manage its interest cost using a mix of fixed and variable rate debts as well as by rolling over its borrowings on a short-term basis.

Sensitivity analysis for interest rate risk

Movements in interest rates will have an impact on the Company's loans and borrowings. A change of 75 basis points (bp) in interest rates at the reporting date would change equity and profit before tax by US\$20,073 (2019: US\$43,127). This analysis assumes that all other variables remain constant.

(ii) *Foreign currency risk*

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Currency risk arises when transactions are denominated in foreign currencies.

The Company has transactional currency exposures arising from expenses that are denominated in a currency other than the functional currency. The foreign currencies in which these transactions are denominated are mainly Singapore Dollar (SGD) and Euro (EUR). The Company's other receivable and other payable balances at the end of the reporting period have similar exposures. The Company also hold cash and cash equivalents denominated in foreign currencies for working capital purposes.

However, the Company does not use any financial derivatives such as foreign currency forward contracts, foreign currency options or swaps for hedging purposes.

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity of the Company's (loss)/profit before tax to a reasonably possible change in the SGD and EUR, with all other variables held constant.

	(Loss)/profit before tax	
	2020	2019
	US\$	US\$
SGD		
– strengthened 1% (2019: 3%)	406	552
– weakened 1% (2019: 3%)	(406)	(552)
EUR		
– strengthened 4% (2019: Nil%)	686	–
– weakened 4% (2019: Nil%)	(686)	–

Notes to the Financial Statements – 31 March 2020

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(iii) *Credit risk*

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Company's exposure to credit risk arises primarily from trade and other receivables. Guidelines on credit terms provided to trade customers are established and continually monitored. For cash and cash equivalents, the Company minimises credit risk by dealing exclusively with reputable and well-established local and foreign banks, and companies with high credit ratings and no history of defaults.

The Company's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposures. Credit policies with guidelines on credit terms and limits set the basis for risk control. New customers are subject to credit evaluation while the Company continues to monitor existing customers, especially those with repayment issues. In addition, appropriate allowances are made for probable losses when necessary for identified debtors.

The Company does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

In order to minimise credit risk, the Company has developed and maintain the Company's credit risk gradings to categorise exposures according to their degree of risk of default. The credit rating information is supplied by independent rating agencies where available and, if not available, the Company uses other publicly available financial information and the Company's own trading records to rate its major customers and other debtors. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses (ECL)
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	12-month ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL – not credit-impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and has no realistic prospect of recovery.	Amount is written off

Notes to the Financial Statements – 31 March 2020

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(iii) *Credit risk (continued)*

The tables below detail the credit quality of the Company's financial assets and other items, as well as maximum exposure to credit risk by credit risk rating grades:

	Note	External credit rating	Internal credit rating	12-month or lifetime ECL	Gross carrying amount US\$	Loss allowance US\$	Net carrying amount US\$
2020							
Other receivables	7	N.A.	Performing	12m ECL	22,636	–	22,636
Amounts due from holding company	8	N.A.	Performing	12m ECL	2,704,704	–	2,704,704
						–	
						–	
2019							
Other receivables	7	N.A.	Performing	12m ECL	21,428	–	21,428
Amounts due from holding company	8	N.A.	Performing	12m ECL	5,952,057	–	5,952,057
						–	
						–	

No expected credit loss been provided for amounts due from holding company as majority of the amounts due is trade in natures and the holding company always settled the debts within the credit term given.

Exposure to credit risk

At the end of the reporting period, the Company's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the balance sheet. No other financial assets carry a significant exposure to credit risk.

Credit risk concentration profile

The Company has no significant concentration of credit risk. The maximum exposures to credit risk in relation to each class of recognised financial assets other than derivatives is represented by the carrying amount of each financial assets as indicated in the balance sheet.

(iv) *Liquidity risk*

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from possible mismatches of the maturities of financial assets and liabilities. The Company objective is to maintain a balance between continuity of funding and flexibility through the use of standby credit facilities.

Notes to the Financial Statements – 31 March 2020

26. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

(iv) *Liquidity risk (continued)*

Analysis of financial instruments by remaining contractual maturities

The table below analyses the maturity profile of the Company's financial liabilities at the end of reporting period, based on contractual undiscounted repayment obligations.

	Total US\$	Within one year US\$	Within two to five years US\$
2019			
Trade payables	3,522,332	3,522,332	–
Other payables	32,666	32,666	–
Amounts due to holding company	1,670	1,670	–
Lease liabilities	293,650	108,586	185,064
Short term borrowings	2,676,381	2,676,381	–
	<u>6,526,699</u>	<u>6,341,635</u>	<u>185,064</u>
2018			
Trade payables	450	450	–
Other payables	38,196	38,196	–
Amounts due to holding company	1,670	1,670	–
Short term borrowings	5,750,313	5,750,313	–
	<u>5,790,629</u>	<u>5,790,629</u>	<u>–</u>

27. CLASSIFICATION OF FINANCIAL ASSETS AND LIABILITIES

The following table summarises the carrying amount of financial assets and liabilities recorded at the end of the reporting period by FRS 109 categories.

	2020 US\$	2019 US\$
<i>Financial assets at amortised cost</i>		
Other receivables	22,636	21,428
Amounts due from holding company	2,704,704	5,952,057
Cash and cash equivalents	149,205	193,844
	<u>2,876,545</u>	<u>6,167,329</u>
<i>Financial liabilities at amortised cost</i>		
Trade payables	3,522,332	450
Other payables	32,666	38,196
Amounts due to holding company	1,670	1,670
Short term borrowings	2,676,381	5,750,313
	<u>6,233,049</u>	<u>5,790,629</u>

Notes to the Financial Statements – 31 March 2020

28. FAIR VALUE OF ASSETS AND LIABILITIES

The fair value of an asset or a liability is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying amount of financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

However, the Company does not anticipate that the carrying amounts recorded at the end of the reporting period would be significantly different from the values that would eventually be received or settled.

At the end of the reporting period, the Company does not have any other asset or liability carried at fair value.

29. CAPITAL MANAGEMENT

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year/period ended 31 March 2020 and 2019. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company is not subjected to externally imposed capital requirements.

The Company will continue to be guided by prudent financial policies of which gearing is an important aspect.

	2020	2019
	US\$	US\$
Trade and other payables	3,554,998	38,646
Amounts due to holding company	1,670	1,670
Short term borrowings	2,676,381	5,750,313
Lease liabilities	280,246	–
Less: Cash and cash equivalents	<u>(149,205)</u>	<u>(193,844)</u>
Net debt	<u>6,364,090</u>	<u>5,596,785</u>
Equity attributable to the owner of the Company	<u>241,583</u>	<u>364,369</u>
Total capital	<u>241,583</u>	<u>364,369</u>
Capital and net debt	<u>6,605,673</u>	<u>5,961,154</u>
Gearing ratio	<u>96%</u>	<u>94%</u>

Notes to the Financial Statements – 31 March 2020

30. COMPARATIVE FIGURES

The financial statements for 2019 cover the financial period from 28 May 2018 to 31 March 2019. The financial statements for 2020 cover the twelve months ended 31 March 2020. As such, the statement of comprehensive income, statement of change in equity, cash flow statement and the related notes for the current year and previous financial period are not comparable.

31. EVENT OCCURRING AFTER THE REPORTING PERIOD

COVID-19 pandemic outbreak

The Coronavirus Disease (COVID-19) outbreak and the measures taken to contain the spread of COVID-19 has created a high level of uncertainty to the near-term global economic prospects and caused disruptions to various businesses. A series of measures to curb the COVID-19 outbreak have been and continue to be implemented in Singapore, including requirements to limit or suspend business operations, travel restrictions and quarantine measures. The Company is taking precautionary measures to deal with the COVID-19 outbreak in accordance with guidelines provided by the Government.

As the situation relating to the spread remains dynamic, it is currently not possible to ascertain the full financial impact it may have on the financial performance of the Company for the next financial reporting period.

The Company is closely monitoring the development of the COVID-19 outbreak and its related impact on the businesses. As at the date of these financial statements, the Company is not aware of any material adverse effects on the financial statements arising from the COVID-19 outbreak.

32. AUTHORISATION OF FINANCIAL STATEMENTS

The financial statements for the year ended 31 March 2020 were authorised for issue in accordance with a resolution of the directors on 24 June 2020.

**The accompanying Supplementary Income Statement
has been prepared for management purposes only and
does not form part of the audited financial statements.**
